## FLORENCE

### Wash Basin

Product Code: SPB003

The Florence wash basin should be mounted on top of a work surface. The basin is available in high polish or brushed finish 304 grade stainless steel. Drilled with one tap hole. Cantilever brackets for wall hanging and satin polish are available as optional extras.

## MONTANA

### Wash Basin

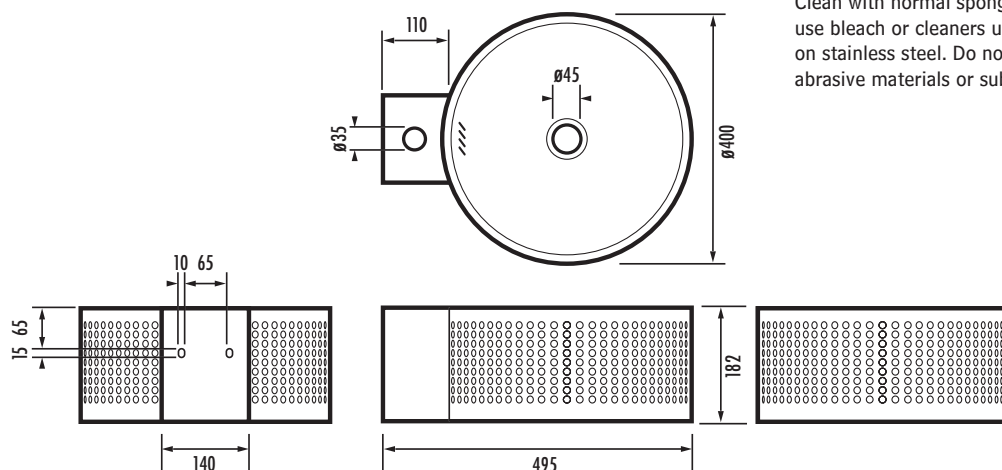

Product Code: SPB006

#### Installation

The Montana is supplied with 2 No expanding fixings which should be bolted into a sturdy wall.

#### Maintenance

Clean with normal sponge and warm soapy water. Do not use bleach or cleaners unless specifically intended for use on stainless steel. Do not attempt to polish using abrasive materials or substances.

## FLORENCE

### Wash Basin

Product Code: SPB003

#### Installation

Insert the waste outlet through the bowl with the seals in position on top and underneath, tighten up the nut to secure. Some work tops made from thicker material may need to be routed out underneath to allow the waste to clamp the bowl down. If cantilever brackets are supplied these should be screwed into a sturdy wall.

#### Maintenance

Clean with normal sponge and warm soapy water. Do not use bleach or cleaners unless specifically intended for use on stainless steel. Do not attempt to polish using abrasive materials or substances.

#### Optional extras for Florence basin

CBK001 Cantilever brackets for wall hanging.
