Santa Fe

Pedestal Basin

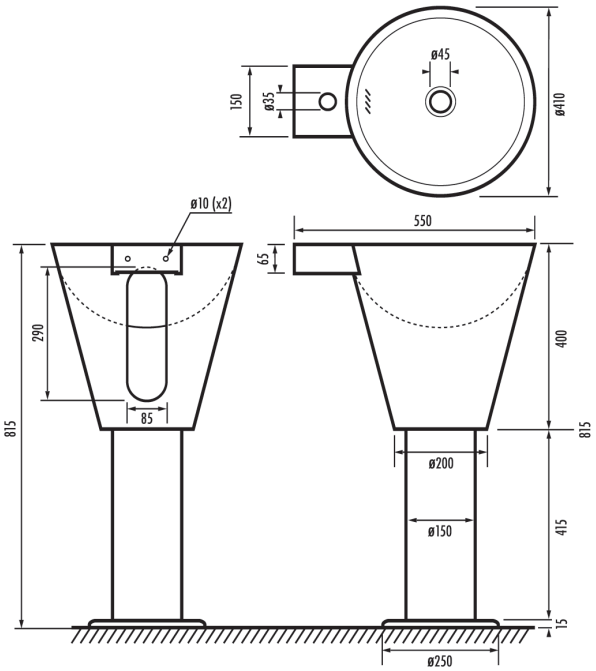
Product Code: SPB005

Santa Fe washbasin comes complete with a conical shroud to the floor. The bowl and pedestal are fabricated from high polish, 304 garde stainless steel. 410mm diameter by 810mm high this basin secures to the wall and floor if necessary. There is a tap landing at the rear drilled with one tap hole to accept a mixer tap.

Santa Fe

Pedestal Basin

Product Code: SPB005



Installation

The tap landing should be bolted firstly to the pedestal, then the bowl clamps to the pedestal using the metal waste pipe, this can be tightened through the access hole from the rear. A bead of silicone can be applied between the bowl and pedestal before mounting the bowl. Any excess silicone wiped away. The bowl can then be fixed to the wall using the expandable bolts provided. The Santa Fe can also be bolted to the floor before the bowl is installed for extra strength.

Maintenance

Clean with normal sponge and warm soapy water. Do not use bleach or cleaners unless specifically intended for use on stainless steel. Do not attempt to polish using abrasive materials or substance.

Optional extras for Nevada bowl

SBS101	Satin brushed polishing to inside.
SBS102	Satin brushed polishing to outside.
SBS301	Satin brushed polishing to both sides.
