

## WINDERMERE

### Trough Urinal Kits

Product Code: UR001

Windermere trough urinal kits come complete with plastic cistern, 22mm stainless steel sparge pipe and down pipe, and 1½" BSP waste outlet. The trough is fabricated from 304 grade, brushed stainless steel and comes with welded 3mm thick end panels. Windermere urinals can also be supplied with boxed ends, down pipe cover and left hand, right hand, or centre outlet. Back inlet spreaders are also available.

## ULLSWATER

### Slab Urinals

Product Code: UR002

Ullswater slab urinal kits come complete with plastic cistern, 22mm stainless steel sparge pipe and down pipe and 1½" BSP waste outlet. The Ullswater is fabricated from 304 grade brushed stainless steel and comes with boxed end panels. Ullswater urinals can also be supplied with anti-vandal square sparge pipe, down pipe cover and left hand, right hand, or centre outlet. Back inlet spreaders and are also available.

## WINDERMERE

### Trough Urinal Kits

Product Code: UR001

#### Installation

The urinal trough should be fastened to the wall through the fixing holes provided. The sparge pipe and down pipe can then be installed with the clips supplied. The cistern can then be mounted and the waste outlet connected.

#### Maintenance

Clean with normal toilet brush and warm soapy water. Do not use bleach or cleaners unless specifically intended for use on stainless steel.
